RACF Infection Control 4.7 Staff Training Record

Section 1 – Staff member’s certification

I the undersigned confirm having received and read the ‘RACF Infection Control 4.7 FACT sheet’ including information about:

- Your obligations
- Your responsibilities as a worker
- Policies and procedures

I understand my responsibilities in relation to infection control and confidently answer the following questions correctly:

(NB. There may be more than one correct answer)

- The expected outcome of Accreditation Standard 4.7 is:
  
  Circle the correct response
  
  1. No infections will ever occur.
  2. There is an effective infection control program.
  3. We will call the Infection Control CNC if we have any infections
  4. We wash our hands

- Which of the following are correct actions to meet standard 4.7?
  
  1. Processes and facilities for hand hygiene and use of personal protective equipment are available
  2. There is a food safety program
  3. Pest control measures are taken
  4. There is a vaccination program for residents and staff
  5. All of the above

- How do we manage an outbreak?
  
  1. Quarantine all staff, residents and visitors
  2. There is a contingency plan for outbreaks, led by the infection control CNC
  3. We wash our hands instead of using alcohol based hand rub when there is a gastroenteritis outbreak
  4. We access information on current community outbreaks and on how to control the spread of specific infections
RACF Infection Control 4.7 Staff Training Record

As a Queensland Health employee, I am able to apply these principles in the workplace.

Section 2 – Line manager certification

I confirm the above named staff member has been provided with the “RACF Infection Control FACT sheet” covering the above

Last Name   First Name
Department  Facility
Payroll Number  Stream (eg Admin)
Signature    Date

This record must be retained in the employee’s Personnel File.
